Job Description

The City of Troup is seeking a motivated, qualified person to fill the position of Utility Maintenance Worker.

Under the direction of the Public Works Director the Utility Maintenance Worker performs preventative and corrective maintenance tasks under adverse weather conditions such as extreme heat, cold, and rainy conditions to include but not limited to: Repair, maintenance, and installation of water and wastewater lines, valves, fire hydrants, lift stations, mains, and manholes associated with the City's water distribution and wastewater collection systems; Performs general maintenance repairs concerning water leaks, sewer backups, street/sidewalk repairs, buildings, structures, grounds, machinery, equipment, parks, and drainage facilities; Assists in reading meters monthly; Operates various machinery; Backhoe experience is desired; This position responds to complaints and work requests from the general public and is under bi-weekly rotation for 24 hour call out emergencies; Assists other departments with general maintenance duties to include special events; Follows both written and oral communications and performs other duties as assigned.

Any applicant tentatively selected for this position will be required to submit to a physical, criminal background check and drug/alcohol screening prior to employment. Position will remain open until filled. EOE.
